

## The Record-Breaking Bristol Exceeds the \$175 Million Mark

After already shattering the record for highest price per square foot among West Palm Beach condos, The Bristol is continuing to push the bar higher, with \$175 million in sales so far.

Of these sales, two of them are penthouse units on the 25th floor, selling for a record near \$15 million each. So far, the majority of sales in The Bristol have been to Palm Beach residents looking for a fresh alternative to the existing, older condominium inventory in the Palm Beach Island vicinity.

About 25 percent of the condominiums are under contract, with sales continuing to accelerate quickly.
